Upcoming Events

- **ONLINE** May 27, 2021: [Expert Group Meeting - Spatial Data Analytics](#), 4 pm - 6.30 pm
- **ONLINE** June 02, 2021: 4. [Konferenz Perspektiven mit Industrie 4.0.](#), 8.30 am - 4.30 pm
- **KKL Lucerne / ONLINE** June 08, 2021: [SDS2021 Workshops](#), 1 pm - 4.30 pm
- **KKL Lucerne / ONLINE** June 09, 2021: [SDS2021](#), 8 am - 6 pm
- **ONLINE** June 14 - 16, 2021, [6th Swiss Text Analytics Conference](#), 8 am - 6 pm
- **ONLINE** June 14, 2021, [Use Case Talk Series](#), 6 pm - 10 pm
- **ONLINE** June 23 - September 15, 2021, [GEOSummit 2021 Webinar Reihe](#), 8.30 am - 6 pm

Teaser Interviews with SDS Keynote Speakers

Time flies and before we know it, SDS is here again!

This year we have **4 tracks** with **34 talks** and **6 sparkle discussions**. Check out our impressive program [here](#). We have two Keynote Speakers. **Lothar Baum** is Head of Engineering Cognitive Systems at Bosch. He will tell us everything we want to know about Automated Driving. Read the teaser interview with him [here](#).

Joe Hellerstein is Chief Strategy Officer at Trifacta and Professor at UC Berkeley. He will be speaking about data engineering. Read our interview with him [here](#). Spoiler: it may get you into data preparation! If you have not done so already, register to SDS2021 [here](#).

SDS2021 Workshops

This year we are organizing four workshops on the **8th of June** that cover many relevant topics of today: At the “[1st International Symposium on the Science of Data Science](#)” the question “what is the science of data science?” will be discussed. Three workshops are also part of the [Databooster](#) program: Are you interested in exploring and discussing the possibilities of cutting-edge projects on NLP? Join the workshop “[Innovation in Language-Based Human-Machine Interaction](#)”. To get an introduction to the use of service design to help develop digitally enabled services, join the “[Smart Service Design in Practice](#)” workshop. Open data can help with global challenges and to change the way we understand and interact with the world. Join “[The Untapped Potential of Open Geodata](#)” to learn all about this potential.

Data innovation alliance Relaunched Expert Groups

Our Expert Groups (EG) are renewed, refreshed and relaunched. We now have 12 Expert Groups focusing on various of the most important current data science

topics. We have a new group called Privacy Technologies for Data Collaboration. Then there are the renamed and reshaped ones: Big Data & AI Technologies, Blockchain Technology in Inter-organizational Collaboration, Data-Driven Business Models and Data Sharing and Visualization. Go to look at our EG groups [here](#).

Expert Groups

Within the data innovation alliance, profound expertise about data-driven products, services and business models is available. Academic and Industrial Members are jointly dealing with specific topics in Expert Groups.

trivadis

Welcome to the new members of the data innovation alliance

In the last three months seven companies and one research group have joined our alliance. We are very happy to collectively welcome [Experientia](#), [Acodis](#), [Roche](#), [Decentriq](#), [IPT Innovation Process Technology](#), [Trivadis](#), [PostFinance](#) and the [Swiss Federal Institute for Forest, Snow and Landscape Research WSL](#). Welcome to our innovation network - you make what we do possible.

Together we move faster!
